Helpful Tips for Transfer Students

Welcome to SJSU!
**ADVISING**

It is important that you meet with a Major advisor and/or an ACCESS advisor each semester to make sure you are on track for graduation and remain informed. Students are highly encouraged to *meet with an advisor prior to registration* each semester.

**ACADEMIC PROGRESS**

Keep track of your academic progression by referencing your MyProgress on your MYSJSU. MyProgress allows you to check your progress towards meeting your degree requirements.

**REVIEW TRANSFER CREDITS**

Review your transfer units through MyProgress and verify that you have completed your lower division General Education requirements along with your American Institutions and Physical Education. Make sure to register for these requirements in the spring if they have not yet been met.
SJSU STUDIES

As an upper division student you have to complete upper division general education requirements known as SJSU studies. There are many courses to choose from to satisfy each SJSU studies requirement. Note that some courses may also count for a Major req.

MAJOR/MINOR REQUIREMENTS

Review your Majors degree requirements. SJSU offers many minors to choose from. If interested in a minor make sure to review the minor requirements as well to identify courses for future course registration.

REGISTRATION FORMS

Student registration forms can be found on the SJSU's Registrars Website. You’ll be able to find graduation application information, change of major, add/drop minor, late drop/withdrawal, and much more.
